Drive

HD (720P) Vehicle Accident Camera with 1.5" LCD Monitor

The Smart-i Drive is a HD 720P vehicle collision camera with a 1.5" LCD Monitor for live viewing, playback and setup. In addition, the camera features a high-quality lens capturing clear images of the driver's view of the road. The HD images provided by the camera can be used as evidence and can protect a driver from many of the issues faced on the roads today, including:

- Cash for Crash/Pre-meditated staged accidents
- Conflicting Reports of Actual Events
- Lack of Witnesses

The Smart-i Drive features a HD (720P), 72° lens to provide a comprehensive view of any incident and record exactly what happened. In addition to this, the recorder features a 1.5" LCD display and optional audio recording. The Smart-i Drive is designed to look like a part of the vehicle with a small and unobtrusive frame, preventing any unwanted attention from passengers or passers by.

Designed for simple DIY installation, the Smart-i Drive attaches to the inside of your windscreen using a high strength adhesive pad. In the event of an incident/accident occurring, the user can simply remove the Micro SD Memory Card from the unit and plug it into a Windows PC using a USB SD Card Reader.

The Smart-i Drive can also make use of motion detection recording saving space on the Micro SD Card as it only records when objects move in front of the camera. The recorder takes Micro SD Cards up to 32GB giving a maximum recording time of up to 8 hours when recording in HD 720P

FEATURES

The Smart-i Drive is an affordable HD Vehicle Accident Camera that is packed with many unique features, including;

Recording:

- 72° viewing angle of the road
- Motion Detection Recording
- Real Time HD Images
- Optional Audio Recording
- Optional LED recording
- Flexible recording modes:
- **Motion Detection** - records whenever movement is detected in front of the camera
- **Continuous** - records all the time and bookmarks the recording
- **Auto** - Recorder will begin to record immediately after the unit is powered, ensuring no evidence lost if driver doesn't immediately turn on the recording function
- Loop recording function that adjusts video size, up to 10 minutes

Snapshots:

- The Smart-i Drive can act as a PC web cam as well as vehicle accident camera
- Takes high definition snapshots of up to 5 Megapixels
- Images can be taken using a timer or several at once using 'burst' mode
- Date Stamp on all images to show time and date of all saved snapshots

Additional Features:

- Built-in microphone / speaker for audio recording and playback
- Recorder offers LED recording for night time operation
- On-screen video & audio playback in addition to snapshot viewing via the 1.5" LCD screen

Physical:

- Manufactured using light weight polycarbonate, keeping the unit small and light
- Plugged into the cigarette lighter plug for easy installation
- Comes with a suction windscreen mount to attached easily to the windscreen
- 1.5" LCD Monitor for Live Viewing and playback

Other Benefits:

- Designed in house by our experienced R&D team and manufactured in our own state of the art facilities
- No on-going subscription fees or other charges
